Rider's Reviews.

After 10 years and a long court battle Cassidy Winters has returned to Piper's Point to bury Sadie "don't call me grandma" Hart. Cassidy hopes to keep a low profile but best laid plans and all of that go out the window when he meets Neil and takes him back to the house for some wild sex. When Cassidy rescues a small dog who needs vet attention his arrival back at Hart is quickly spread.

His arrival brings his old teen-age love Nate back to his doorstep whom for some reason he ask to move in on the first day never thinking that his current fling and his old boyfriend might have a problem with each other. Then is the arrival of best friends, Ollie and Spencer who became a couple after Cassidy broke up with each of them. As if all these men weren't enough in the house Teddy, his latest Ex arrives at the door so of course Cassidy being the person he is allows him to stay also. Jealousy is a large part of the story as Nate, Teddy and Neil all vie for Cassidy's attention.

I had a hard time getting into the book. This was a departure from the usual Romantic Comedy that Ethan normally writes, the characters while basically likeable didn't bring you into the story as much as his characters normally do, perhaps because there were so many of them. I found Cassidy to be painfully naive never understanding why Nate may have a problem with the many ex's showing up at Piper's Point and Cassidy's willingness to let them stay with him. I also had a problem with Nate's hot and cold reaction with Cassidy, granted I didn't expect them to pick up the relationship where it ended ten years ago but I needed more sexual tension. As it was it would be a heavy make out session with Nate suddenly pulling away saying "I can't do this."

If you have never read an Ethan Day book then by all means pick it up and give it a chance. If you have read some of his other better works pass this one by.

Reviews of The Surrogate by Ann Somerville.

Basically a very elaborate hurt/comfort fic, with three sympathetic main characters suffering from PTSD after going through terrible abuses. This book was not what I was expecting from the description, but it was a fairly pleasant surprise.

The supposed 'sequel' -- nearly double the length of Part 1 -- is included. In fact, the two parts don't seem ever to be sold separately; at least, I haven't found any evidence that they've ever been sold separately. So this is really just one long book, with The Surrogate functioning as a kind of long intro to get us to the longer Reincarnate, where Somerville spends more time exploring interpersonal dynamics.

The only functional way that the two Parts could be called different books is because of the POV change between them. The Surrogate really has two main characters, Nikolas and Jaime, and is told in the first person from Nikolas' POV. Reincarnate is told in the third person and switches main POV's between Jaime and Severin, who was barely glimpsed in The Surrogate although his presence loomed large. Once Reincarnate begins, we never get Nikolas' POV again. I rather missed it.

I found The Surrogate itself to be a page-turner. Jaime and Nikolas are trapped in an awful situation, and I really liked the pace at which the details of this situation are revealed. There are some aspects that were transparently contrived and unbelievable, but arguably not the actual situation itself

(a credit to Somerville's skill at world-building). Although I enjoyed seeing these characters through the aftermath, in *Reincarnate*, it became quite tedious at times. A long, repetitive litany of guilt and blame and self-esteem problems. Alternately compelling and tedious -- a bit like reading/hearing about other people's effed up relationship problems in real life!

I enjoyed both *Surrogate* and its sequel *Reincarnate*. Jaime and Seve and Nicholas all touched me deeply and I was desperately hoping that they will be able to overcome the horrible abuse that was done to them and have some happiness ahead of them and I am glad that they did. I have no idea of course if author had in mind the abuses that Catholic church engaged in when she describes the horrific practices the priests of the Temple engaged in, but this real life association definitely came into my mind. Guys struggles to leave the past behind and how hard and painful to make it actually happen affected me deeply.

And while I also think that the book should have mentioned three some relationship (not for my benefit, I knew it before I started the book), I also think that this is one of the very best, believable and touching description of forming such relationship.

Ann Somerville.

Steve McCallum is a private security professional, offering protection to London's rich and secretive elite. When a nanny is attacked and her charge is abducted, Steve works with the police to find the missing baby. A chance meeting with a skirt-wear.

Watch Over Me.

Prince Étienne Donadieu is heir to a highly valuable sea stack in the middle of the Bay of Biscay. His outspoken views have already led to one nearly fatal knife attack. His new bodyguard, Paul Villeneuve, hopes to prevent a second. But Paul doesn't.

The Surrogate 2020 (The Surrogate) ► 电影 下载 网站 推荐-1080P.

The Surrogate. 1h 33min | Drama | 12 June 2020 (USA) A web designer for a nonprofit in Brooklyn, is ecstatic to be the surrogate and egg-donor for her best friend and his husband. Twelve weeks into the pregnancy, a prenatal test comes back with unexpected results that pose a moral dilemma.

The Surrogate (TV Movie 2013) - IMDb.

Directed by Doug Campbell. With Cameron Mathison, Annie Wersching, Amy Scott, Matthew Alan. A married couple, struggling to have a child, hires a young woman to be their surrogate, but soon discovers she has a bizarre and deadly agenda.

The Surrogate (1984) - IMDb.

The Surrogate. R | 1h 40min | Drama, Mystery, Thriller | 2 November 1984 (Canada) Stuck in a sexless marriage, a frustrated well-to-do couple agrees to see a female sex therapist. Unfortunately, she only helps escalate the tensions between them. Meanwhile, the police is baffled by a string of brutal nightly killings.

The Surrogate (2020) directed by Jeremy Hersh • Reviews .

In Jeremy Hersh's sharp film debut, a woman finds herself in a complex situation after agreeing to become a surrogate for her gay best friend. But after a pre-natal test, an unexpected diagnosis poses a more difficult dilemma. *The Surrogate* is a talkative film, and rightly so. The film juggles a variety of sensitive and controversial themes and Hersh, who also wrote the film, attacks it with ambitious scope, and sufficient insight and depth.

The Surrogate by Louise Jensen - Goodreads.

The Surrogate is a fast-paced, entertaining, intriguing yet far-fetched and twisty story that felt like we were watching a fast-paced train on its way to a train wreck. It's a twisty path with lots of turns that clipped along as the suspense kept building until the twisty carnage that left us gawking in disbelief.

The Surrogate (Brennan & Esposito, #1) by Tania Carver.

The Surrogate is a book I have wanted to read for ages as it is the first book in a series that I have waited too long to read. I have previously read *Truth or Dare* by Tania Carver and loved it. *The Surrogate* deals with a very dark and uncomfortable storyline, and this is from someone who loves their crime fiction as brutal as possible.

The Surrogate by Ann Somerville - Goodreads.

The Surrogate tells the story of Nikolas as he is swept up into a dark world of slavery and abuse, where he might be the only hope of those trapped for a lifetime serving the needs of an evil and rapacious god. This story includes graphic depictions of rape and torture. Definitely not for the faint-hearted. *Reincarnate* is the sequel to *The Surrogate*.

“The Surrogate” Is Bringing Difficult Conversations on .

In the end, he created *The Surrogate*, a microbudget indie that follows nonprofit web designer Jess (Jasmine Batchelor) as she acts as the surrogate and egg donor for gay couple, Josh (Chris Perfetti) and Aaron (Sullivan Jones). When the film begins, the trio are inseparable friends who spend every waking moment together, but when a prenatal test reveals that the baby will be born with Down syndrome, their differences in

opinion on what to do next leads to a rift in their once-unbreakable bond.

Surrogates (2009) - IMDb.

Directed by Jonathan Mostow. With Bruce Willis, Radha Mitchell, Ving Rhames, Rosamund Pike. Set in a futuristic world where humans live in isolation and interact through surrogate robots, a cop is forced to leave his home for the first time in years in order to investigate the murders of others' surrogates.

Surrogates is a 2009 American dystopian science fiction cyberpunk mystery action comedy-drama thriller film based on the 2005–2006 comic book series The Surrogates. Directed by Jonathan Mostow, it stars Bruce Willis as Tom Greer, an FBI agent who ventures out into the real world to investigate the murder of surrogates (humanoid remote-controlled robots).
